PROFESSIONAL SUMMARY

Full-Stack Developer with a track record of shipping production applications used by real people. Built Chowvest, a fintech food savings platform processing █2M+ in transactions, and 7+ other live apps across fintech, social, and e-commerce. Specialized in Next.js, Supabase, and payment integrations (Paystack, Stripe). Strong focus on performance optimization, clean architecture, and user-centric design.

WORK EXPERIENCE

Full-Stack Developer (Freelance) | Starboard AI

Lagos, Nigeria | Apr 2025 – Jul 2025 (Contract)

- Built automated data integration pipeline processing 100K+ records from ZolaApp and US Census databases
- Developed custom REST API endpoints aggregating multiple datasets, reducing data retrieval latency by 40%
- Created interactive data visualization dashboards using React.js, improving data accessibility for stakeholders
- Designed and implemented automated data validation and cleaning processes to ensure consistent, production-ready structured outputs.
- **Technologies:** React.js, Node.js, Express.js, PostgreSQL, RESTful APIs

Front-End Developer (Freelance) | Ames Digital

Lagos, Nigeria | Jan 2024 – May 2024

- Built 5+ interactive web applications using React.js and Next.js, serving 10K+ monthly users

- Improved average page load times by 25% through code splitting, lazy loading, and image optimization
- Collaborated with a 3-person design team to implement pixel-perfect responsive designs with a mobile-first approach
- Integrated RESTful APIs (Stripe, Firebase Auth) to enhance app functionality and user experience
- **Technologies:** React.js, Next.js, Tailwind CSS, RESTful APIs

Transaction Recording Specialist (Intern) | Credite Capital Finance and Investment Ltd

Lagos, Nigeria | Aug 2023 – Dec 2024

- Recorded and maintained detailed financial transactions in internal databases with 99.8% accuracy
- Used spreadsheet tools and internal software to support financial reporting and regulatory compliance
- Coordinated with accounting team to resolve discrepancies — an early exposure to data integrity and fintech workflows

PROJECTS

Chowvest – Food Savings Platform

Dec 2025 | [Live Demo](#) | [GitHub](#)

- Designed and implemented a scalable full-stack fintech platform enabling users to set and track food basket goals with real-time progress monitoring
- Integrated Paystack payment gateway and NextAuth for secure authentication and wallet management (₦2M+ in transactions)
- Implemented automated delivery request system and multi-item goal planning for staple foods (rice, beans, garri)
- Built a responsive dashboard with savings analytics and goal completion tracking
- **Tech Stack:** Next.js, Supabase, NextAuth, Paystack API, Tailwind CSS

Moooments – Event Media Platform

Jan 2025 | [Live Demo](#) | [GitHub](#)

- Built privacy-first photo-sharing platform for event attendees with AWS S3 integration for scalable storage
- Reduced page load time by 25% through lazy loading, image compression, and performance optimization
- Implemented private album sharing, photo upload limits, organizer permissions, and storage upgrade options
- Developed a Django REST API for efficient file uploads and user management
- **Tech Stack:** React.js, Django, AWS S3, PostgreSQL, Tailwind CSS

Dailies – Social Media Platform

Apr 2025 | [Live Demo](#) | [GitHub](#)

- Created a minimalist social media platform focused on authentic daily moments with chronological feeds
- Implemented real-time features using WebSockets and Prisma ORM for efficient database operations
- Features: daily posting limits, distraction-free UI, friend connections, and photo sharing
- Optimized for a mobile-first experience with responsive design and touch interactions
- **Tech Stack:** Next.js, Supabase, Prisma, WebSockets, Tailwind CSS

Lovegram – AI-Generated Valentine Messages

Feb 2025 | [Live Demo](#) | [GitHub](#)

- Developed an AI-powered message generator using the Gemini API with interactive animations
- Built mobile-responsive UI with Tailwind CSS for seamless cross-device experience
- Integrated real-time message generation with custom prompts and personalization
- **Tech Stack:** Next.js, Gemini API, OpenAI API, Tailwind CSS

HatsOffwears – E-commerce Platform

Ongoing | [GitHub](#)

- Built a full-stack e-commerce platform with a product catalog (50+ items), shopping cart, and Stripe payment integration
 - Implemented Firebase Authentication (OAuth + email) and Firestore for real-time inventory management
 - Optimized SEO and accessibility, achieving 95+ Lighthouse scores across all metrics
 - Features: product search, filtering, user reviews, order tracking, and admin dashboard
 - **Tech Stack:** React.js, Firebase (Auth, Firestore), Paystack API, Tailwind CSS
-

ACHIEVEMENTS

- Reduced page load times by 25% across multiple production applications through performance optimization
 - Built and deployed 8+ full-stack applications serving real users in fintech, e-commerce, and social media
 - Completed 100+ hours of advanced full-stack development training (ALX Foundations)
 - Successfully integrated payment systems (Paystack, Stripe), handling ₦2M+ in transactions
-

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Three.js, Shadcn/UI

Backend: Node.js, Express.js, Django, Python

Mobile Development: React Native, Kotlin, Cross-platform Development

Databases: PostgreSQL, MongoDB, Firebase Firestore, Supabase

Cloud & DevOps: AWS (S3, EC2), Vercel, Git, GitHub

APIs & Integration: RESTful APIs, Paystack, Stripe, Gemini AI, OAuth, WebSockets

Testing & Quality: Jest, Mocha, Lighthouse, Web Vitals

Specialties: Performance Optimization, Responsive Design, API Development, Data Visualization, Payment Integration
